

A4 INTERLOCKING PRESENTATION FOLDER

Document size

With Bleed: 507mm x 381mm

Without Bleed: 501 x 375

Import the template into your artwork.

Use Page 1 for a single-sided folder and both pages for a double-sided folder.

The template will need to be kept separate from your design.

This can be achieved in either of the following ways

- Keep the template on a separate layer to all other design elements
- Keep the template as a spot colour "cutter"

3mm Bleed area

Remember: Any backgrounds or images that extend to the edge of the finished folder must extend to the outside of this 3mm bleed area. Anything in this area will be trimmed off.

BACK

FRONT

This area
will be covered
by the side flap

Slots for 85mm x 55mm Business Card
